REMEDY FOR EVERY WRONG

Under Our System of Government-Czolgosz's Punishment Should be a Warning to Others.

Buffalo, Sept. 9 .- William J. Bryan today telegraphed the Times as follows: "Free governments may be overthrown, but they cannot be reformed by those who violate the commandment, Thou shalt not kill.' Under a government like ours, every wrong can be remedied by laws and the laws are in the hands of the people themselves.

Anarchy can be neither excused nor tolerated here. The man who proposes to right a wrong by taking the life of a human being, makes himself an outlaw and cannot consistently appeal to the protection of the government which he repudiates. He invites a return to a state of barbarism, in which one must at his own risk defend his own rights and avenge his own wrongs.

"The punishment administered to the would-be assassin and to his co-conif he has any one, should be that while this is an asylum for those who love liberty, it is an inhospitable place for those who raise their hands against all forms of government.

HENRY WATTERSON SPEAKS. "All of Us This Night Are McKinley Men," He Declares.

Louisville, Ky., Sept. 9.—Speaking tonight at a mass meeting called to demand vigorous laws against anarchism,
and to express sympathy with President McKinley, Henry Watterson said;
"We must meet the blood-stained
hands of anarchism not merely with
elegant hands but with a purer public cleaner hands, but with a purer public spirit, if not a deeper philosophy. We must disseminate the lesson that gov-ernment exists not for the private gain of any nor for the cure of any private grief, but for justice, the citadel and the bell-tower of the public peace and

A DAY OF PRAYER. Gov. Orman Appoints Sept. 11 as One.

Denver, Colo., Sept. 10 .- Gov. Orman has issued a proclamation setting aside Wednesday, Sept. 11, as a day of prayer for the recovery of President McKinley, and requesting that every loyal citizen of the state join in a prayer converse, for the second recovery of the service for the speedy recovery of the

France Will Have Flotillas.

Paris, Sept. 10.-The Matin announces M. De Lanessan, minister of marine, has decided upon the creation at certain seaports and various coast points of flottilas of submarine boats. The first, consisting of six vessels, will be established at Cherbourg.

Sultan of Morocco Defers.

London, Sept. 10 .- The Tangier correspondent of the Times says:

The sultan defers to give effect to the convention agreed to between his plenipotentiaries and Lord Lansdowne in London last June. Letters have been received permitting the exportation of potatoes and other vegetables, the shipping of which was formerly not alwed, but this formed only one clause of the convention.

This action of the sultan does not

filustrate the sincerity of his protesta-tions of friendship for England. "The disturbances in the country are increasing, and amount almost to an archy in many districts. The minister of foreign affairs beyieves that the Spanish captives carried off last May have been but to death. The Spanish £200 daily from the date of the capture until next Thursday, when it will take further steps. There is no indication that Madrid has yet decided what steps will be taken.'

Sothern Opens in New York. New York, Sept. 10 .- E. H. Sothern

New York, Sept. 10.—E. H. Sothern opened his season at the Garden theatre, presenting Lawrence Irving's "Richard Lovelace," a play written about some few facts of the 17th century soldier poet's life. Miss Cecelia Loftus takes the part of "Lucasta" (Lady Sackville) delightfully. The east is small and the minor parts

are intelligently taken. The play is perhaps too sad to achieve the greatest popularity.

An Aged Couple Suicides.

Chicago, Sept. 10.-Peter Jackson and his wife both past 60, were found dead in their flat at 540 Belmont avenue last evening. The gas jets in the parlor, dining room and bedroom were wide open. The stove connection in the kit-chen was also turned on. It is the belief of the police that the aged couple died together by agreement.

VAUGHAN ON CATHOLICS. Should Call Themselves "Catholics" Rather Than "Roman Catholics."

New York, Sept. 10.-Cardinal Vaughan made a striking address at the opening of the Catholic conference in Newcastle last night, says a London dispatch to the Times. The cardinal implored Catholics to call themselves Catholics—Roman Catholics, if they pleased, but preferably Catholics.

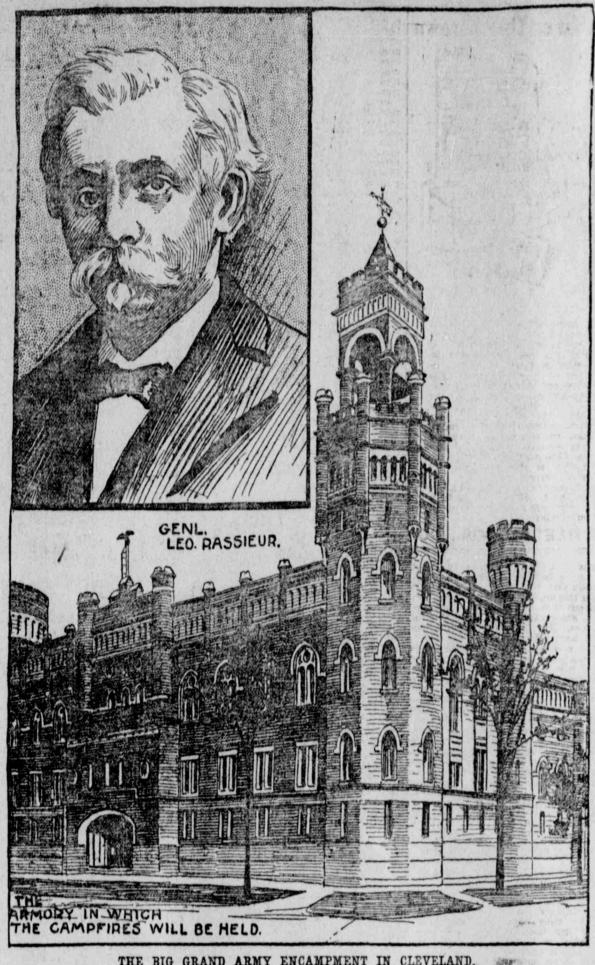

"Indeed," the cardinal went on to say, "it is important in this country

that we call ourselves 'Catholics' rather than 'Roman Catholics,' because a false meaning is more often attached to the latter than the former term."

In speaking of the royal declaration the cardinal said that it was the accepted decision of the country that the king must be a Protestant. It was ex-pedient that the king should be of the religion of the overwhelming majority subjects, Catholics, however, had no difficulty in giving their royal llegiance to a Protestant sovereign and in this they seemed more liberal and of a more confiding temperament than those who refused allegiance to a king not professing their creed. Cath-olic Belgium placed Profestant Leopold on the throne and gave him as hearty devotion as had ever been shown to his Catholic successor. Sixteen millions of German Catholics were not less loyal to their Protestant emperor than the mil-lions of his subjects who were Pro-

testants or of no religion.

The cardinal pointed out that it

THE BIG GRAND ARMY ENCAMPMENT IN CLEVELAND.

The present Grand Army encampment in Cleveland seems likely to be one of the most successful and best attended gatherings of Union veterans in the history of the organization. The big feature of the reunion will be the great parade on Wednesday, when it is expected that nearly 70,000 veterans will be in line. Today Cleveland is crowded with visitors, and the excursion trains are landing thousands more every hour.

Next session, continued the speaker, parliament might settle forever the po sition of Christianity in this country, when secondary and middle class edu-cation would be "thrown in the melt-

ing pot. The gravamen of the king's declara-tion, said the cardinal later on in his speech, did not lie with his majesty, but on religious prejudice. Bigotry had never tainted King Edward's conduct. The declaration as it stands was called by Cardinal Vaughan biasphemous and an insult to three-fourths of Christendom. As a guarantee, he said, it was a sham. As for the house of lords amendment, it singled out the Catholics' holy religion for solemn de-nunciation. If there must be a declar-ation, let it be one to the effect that the king was a Protestant and let it end

No. 2 Hard Winter Wheat

New York, Sept. 10.-At a meeting of the grain trade held in the produce exchange it was decided that No. 2 hard winter wheat on and after June 1, 1902, shall constitute a good delivery on an equal footing with other contract grades of wheat.

The grade represents a large proportion of the winter wheat crop grown in the southwest. Its introduction as a contract grade, it is said, will militate against "corners" as it gives so much more wheat to deliver. A special committee of the trade appointed some time ago recommended that this grade be made deliverable at a discount of two cents a bushel, but a strong minority among its members has been doing some hard work since in the trade, and it was to their work that the vote to make the grade a full contract was

KNOWLEDGE 07 FOOD. Proper Selection of Great Importance in

Summer.

The feeding of infants is a very serious proposition, as all mothers know. Food must be used that will easily digest, or the undigested parts will be thrown into the intestines and cause sickness.

It is important to know that a food can be obtained that is always safe;

ean be obtained that is always safe; that is Grape-Nuts.

A mother writes: "My baby took the first premium at a baby show on the 8th inst. and is in every way a prize baby. I have fed him on Grape-Nuts since he was five months old. I also use your Postum Food Coffee for myself." Mrs. L. F. Fishback, Alvin, Tex. Grape-Nuts food is not made solely for a baby food by any means, but is for a baby food by any means, but is manufactured for all human beings who

have triffing, or serious, difficulties in the stomach and bowels. One especial point of value is that the food is predigested in the process of manufacture, not by any drugs or chemicals whatsoever, but simply by the action of heat, moisture, and time, which permits the diastase to grow, and change the starch into grape-sugar. This presents food to the system ready

for immediate assimilation.

Its especial value as a food, beyond The cardinal pointed out that it would be no gain to the English Catholics to have a Catholic king. The king was not an absolute monarch. They

So Says Immigration Commissioner Fitchie.

READY TO DRAW DRAGNET.

Conspirators Against President's Life to be Taken in-Details of a Previous Plot.

New York, Sept. 10.-Immigration Commissioner Fitchie, who is in charge at Ellis Island, says that it is impossible to keep anarchists out of the

"The law at present states plainly that no one shall be refused admittance because of his political beliefs," the commissioner added, "and the only way that an anarchist can be kept out is by proving that he had a criminal record on the other side."

The declaration was made in response to a query as to what would be done in regard to a number of anarchists who are on their way over here from England. Scotland Yard officials had cabled descriptions of these men, and it was thought that their entrance to this country could be prohibited.

"These anarchists in most cases are not paupers and meet all the requirements of the immigration laws," the commissioner said.

READY TO DRAW A DRAGNET.

New York, Sept. 10 .- A special to the Herald from Buffalo says: From two sources, each of which is unimpeachable, it is learned that the police of the United States are nearly ready to draw a dragnet and capture a host of anarchists, all of whom are believed to be concerned in the plot to murder President McKinley and other Emma Goldman is believed to be a ader in the conspiracy. She was here

in Buffalo the day before President Mc-Kinley arrived. The police of this city have questioned a relative of hers, from whom much information of value was obtained. The Goldman woman's ar-rest, it is said, will occur within a few hours, if, indeed, it has not already been effected. Evidence is not lacking that the plot was at least partly concocted in Buffalo.

DETAILS OF A PREVIOUS PLOT. New York, Sept. 10 .- Details of a preious plot against the life of Presiden vious plot against the life of Fresident McKinley are given out on authority, it is said by Senator T. E. Ellsworth, according to a special to the Tribune from Lockport, N. Y. He is credited with the statement that the plot was hatched in Paterson, N. J., about the first of May, and Emma Goldman, Luis Binestein and other prominent anarchite are said to have been concerned in ists are said to have been concerned in it. A young tailor, Michael Anunzi, it is said, was the one to whose lot it fell to do the deed. At that time the President was on his tour of the West and Anunzi left for San Francisco where he expected McKinley would be by the time he reached there. But he arrived

I than a secret service detective and Anunzi was promptly arrested, but upon lack of evidence and certain advices from Washington, only the charge of vagrancy was entered against him.

The condition of Mrs. Mckinley is said to have had some bearing upon the matter which was hushed up, the

prisoner being sentenced for eight months in the San Francisco work HEAD CONSPIRATORS PLOT.

Chicago, Sept. 10 .- Charles P. McMui ray, employed by a wholesale grocery house in this city, has notified the po-lice that on the night of July 12 or 15. he is not sure which, while waiting for his suberban train at the main station of the Illinois Central road, he overneard three men discussing plans to kill President McKinley and two well known New York capitalists. After talking a few minutes the three shook hands and went toward the Michigan Central train for Buffalo, McMurray says he told the policeman on duty at the station, and after a few days had practically forgotten the occurrence

The description of one of the men given by McMurray is not unlike the appearance of Czolgosz and it is known that on July 12 he was in Chicago, going east to Buffalo that night.

GLAD PRESIDENT WAS SHOT. A New York Mail Carrier Expressed Himself to This Effect.

Washington, Sept. 9 .- Second Postmaster-General Shallenberger today summarily canceled the contract of a mail-carrier for expressing satisfaction over the shooting of President McKin-ley. The name of the person thus dealt ley. The name of the person thus dealt with is Charles F. Cortright, and he had a contract for carrying the mail between Homer, Cortland county, New York, and Spafford, in Onondaga coun-

It appears that when Cortright first received the announcement of the news of the effective that the President of the confirming his president.

Hearing of this remark, three citizens of the town called upon Cortright and asked if the report were correct, and he replied that it was. Upon receiving this information, duly supported by the oaths of the citizens who had heard this statement made, Mr. Shallenberger took prompt steps to cancel Cortright's contract, upon the ground that a person capable of such sentiments is not a fit custodian of the mails of the gov-

SUPPRESSION OF ANARCHISM.

Lesson of the Attempt on Life of The President.

COMMENTS OF ENGLISH PRESS

Would be a Mistake to Stir Up Pub-He Feeling on Behalf of a Vendetta Against Aparchists in General.

London, Sept. 10.-The papers again occupy themselves fully with Presiden McKinley's state and the anarchist

The Daily Telegraph says: "President McKinley has a wonderful constitution as has indeed been proved by the incidents of his iliness. The simple, almost austere life he has led has helped him at the crisis or his fate, while the devotion and forti-

tude of his wife, with whom, as the

President has said, he has often con-

quered both difficulty and danger, have profoundly touched and inspired the sympathetic pity of the world. The Daily Mail remarks: The Daily Mail remarks:

"Both in this country and in the United States public opinion has hitherto been slow to recognize that the unwillingness to act harshly toward political fugitives cannot be permitted to condone the crimes of ruffians who preach sedition and plot assassination.

The greater the pressure, the more violent the resistance."

the resistance. The Daily Graphic writes: "There is one obvious means of discouraging the anarchist propaganda, which has been too much neglected in the United States, and the continent, namely, to treat the advocacy of crime itself as criminal."

"In this country that principle is accepted and acted upon. Probably if a score or so of philosophic anarchists were sent to cool their heels a year in prison they would grow considerably more cautious in the use of their words and their disciples would begin to learn something of the same reticence in us-

The Morning Post believes that the characteristic lesson of recent events is that all governments are exposed to the same danger. "It is not this or that particular form of authority that is aimed at but all authority. Wherever the anarchist sees authority or government, he strikes, no matter what its origin may be. This is the lesson which is being driven home in the United States by the brutal attack on Presi-

dent McKinley.
"While it would appear that certain measures may be taken by the United States on its own account in order to combat this new evil, it would be bet ter if all such measures were adopted in concert by the great powers after an international conference. There is cer-tainly solidarity between all civilized nations now that America is no long er outside the circle of its influence."

POPE ON ANARCHY. Will Take Initiative in Joint Action

by Christian Powers. London, Sept. 9 .- "The pope has been so impressed by the attack upon President McKinley," says the Rome correspondent of the Daily Mall, "that he intends to take the initiative in joint action by the Christian powers against anarchism. He is writing an important encyclical on the subject, which will be published next month."

Porto Rican Affairs.

New York, Sept. 10.-L. S. Rowe, chairman of the Porto Rican law commission, is now in New York, having arrived yesterday from San Juan. Speaking of the outlook on the island, he is quoted as saying:

"With two such men as former Gov Allen and Judge Hunt to serve the American people in the first colonial experiment, the success of the ultimate outcome was to be foreseen. Under Goy. Allen's direction the broad foundations of civil rule were laid, but it remains for Gov. Hunt's administration to work out in detail the new system of government. The most import-ant economic need of the island at the present time is the opening of the

The popular idea expressed in the phrase, "the art of self-defense," shows the opinion that the chief enemies a man has to defend himself from are visible and external. But the real danger of every man is from minute and often invisible foes. In the air we breathe and the water we drink are countless minute organisms leagued against the health of

The one defense against these enemies is to keep the blood pure. Dr. Pierce's Golden Medical Discovery thoroughly purifies the blood, removing poisonous substances and accretions. When the blood is pure there is no harborage for the germs of disease which find a lodging only when the blood is impure and
